

## Mission Bay Project Online Mitigation Status

The Mission Bay Project Online Mitigation Status Website gives access to information regarding the Mission Bay redevelopment project according to Block Number, Phase, and Mitigation Measure.

PROJECT  
STATUS  
REPORT

Clicking this will bring up the Project Status Report, which gives an overview showing active blocks and their current in the Mission Bay project area. Approval Dates for active blocks are shown. Clicking on a block number will link you directly to the Mitigation Measure Page (see below).

BLOCK  
SUMMARY  
REPORT

After clicking on this, a map will appear on which the block number can be selected. A chart showing significant dates and phase for each sub-measure for different phases in the selected block. To see a Block Summary Report for another Block, use the pull-down menu and push the "Select Button"

MITIGATION  
MEASURES

After clicking on this, a map will appear on which the block number can be selected. When the block is selected, "Mitigation Measure" appears. The information in the Block, Phase, and Mitigation Measure pull down menus tell which sub-measure is currently being displayed. To return to the map showing Block inside the project area, click on the blue round button next to "Block:". To see other sub-measures for the Current Block, press the "Previous" or "Next" buttons. A specific Mitigation Measure can be viewed by using the pull-down menu and pushing the select button. If you want to view sub-measures from another Block, select this from the pull down menus, press the select button, then the sub-measures from your selection can be viewed.

To submit a message to update and or give suggestions to the selected Mitigation Measure, click the "Send Message" button. A message box will appear. After selecting from the Item box the specific part of the Mitigation Measure you wish to update, click the "Enter Message" button. The Message submitted will then be verified before it is sent by clicking the "Submit Message" button.

ENGINEER  
REPORT

Clicking on this will bring up a form for project engineers to submit information for Tentative Map, Final Map and Improvement Plan Submissions.

LOGIN

This grants editing rights to City and RBF Staff.

DISCUSSION  
GROUP

After clicking on this button, a page appears where the user can begin or continue a discussion forum topic. This allows users to suggest changes in a forum where all users can be informed and be involved in the updating process. To begin a new discussion topic, the user inputs their message and clicks the "Post Now" button. This new discussion topic will be indicated with a "posting pin". To continue an already established discussion, click on the subject-line of the discussion line you would like to reply to, type in your comments, and click the "Post Now" button. The moderator of the discussion group will determine when the discussion forum topic is complete and will verify it before it is submitted as an update to the report database.
